Longevity
& Biohacking

9TH – 13TH JUNE 2024

WITH MAX GOTZLER
AND ANDREAS BREITFELD

Longevity & Biohacking Retreat at Krallerhof

DISCOVER THE KEY TO A FULFILLED LIFE OF VITALITY AND WELL-BEING.

Location: Hotel Krallerhof, a place of peace and regeneration | Date: 9th to 13th June 2024

At a time when the desire for a long and healthy life is constantly increasing, we are asking ourselves these fundamental questions: How can we extend our healthy years so that they match our lifespan for as long as possible?

The Longevity & Biohacking Retreat at the picturesque Hotel Krallerhof is dedicated to these essential questions of life. Our approach is profound and personalized, with the aim of not only preventing illness, but also taking your well-being to a new level.

Our holistic program focuses on four pillars of longevity: strength and agility, nutrition, sleep and emotional health. We not only provide you with the necessary knowledge, but also practical tools to:

- Discover the optimal form of exercise that offers real benefits for your health.
- Improve the quality of your sleep without falling into the trap of compulsive monitoring.
- Use nutritional supplements wisely that make a real difference to your wellbeing.
- Boost your emotional health to have a positive effect on other areas of your health.
- Learn about key external factors such as heat, cold, light and oxygen. These are not only responsible for the origin of life on earth, but also significantly control our longevity.

THIS RETREAT IS FOR YOU IF YOU:

- Want to discover the latest biohacking technologies.
- Want to develop better routines for a long & healthy life.
- Enrich your diet with high-quality supplements.
- Want to recharge your batteries in a power place in nature.
- Experience deep relaxation through breathing exercises, sound healing and meditation.
- Receive professionally supervised tests to determine your health status.
- Want to make new connections with like-minded people.

AT THIS RETREAT YOU WILL EXPERIENCE AND LEARN:

- How to use biohacking methods and tools to improve your mental and physical performance, sleep, nutrition and recovery.
- Understanding how your body works on a cellular level to optimize your health and longevity.
- Increase your energy through effective breathing techniques that boost your concentration and vitality.
- Discover the power of superfoods and medicinal mushrooms such as Chaga and Reishi.
- Try out biohacking technologies such as red light therapy and cold chamber.

RETREAT PROGRAMM

SUNDAY TO THURSDAY

Sunday: Arrival and getting in the mood

3.00 pm: Arrival and a warm welcome.
Check in to sleep-optimized rooms.

5.00 pm: Welcome round by Michaela Altenberger, Andreas Breitfeld and Max Gotzler. Presentation of the retreat concept and discussion of individual goals.
